

QUID

Quality, Inclusion & Digitalisation

2021-1-IT02-KA220-SCH-000032518

What is QUID about?

QUID – Quality, Inclusion & Digitalisation

is a two year Project, running from February 2022 to January 2024, co-funded by the Erasmus+ Programme of the European Commission.

It is implemented by a consortium of nine (9) partners from six (6) countries: Italy, Türkiye, Poland, Portugal, Spain and Malta.

The QUID project will respond to the needs of the digital transformation of training courses, allowing Teachers to acquire the articulated skills of the Educational Innovation Consultant.

Which are the objectives of the QUID project?

To favour the methodological and technological upskilling of European teachers from 6 countries (IT, TR, ES, PT, PL, MT), to conceive, design and deliver integrated digital teaching paths for personal empowerment by enhancing the resilience, flexibility and adaptation to change skills that are essential for a motivated and conscious evolution towards the role of Educational Innovation Advisor.

To increase and maintain over time an articulated set of distinctive and emerging skills of a didactic, digital and design nature of the Teacher 4.0 called to work with a high degree of autonomy and continuity.

To encourage the systematic adoption of technical methods and tools of an inclusive, integrated, digital, didactic approach by developing and disseminating a Toolkit to inspire and guide the professional action of future Educational Innovation Advisors.

To establish lasting agreements and synergies between schools, methodological and technological innovation training poles and public bodies to adopt the train-the-trainer framework developed by the project and support sustainability and the pursuit of excellence in the development of learning and teaching.

What are the expected results of the QUID project?

Our results include:

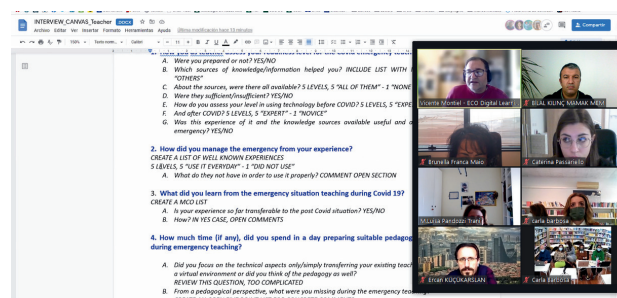

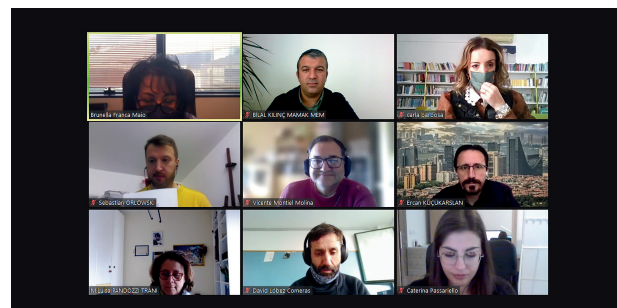

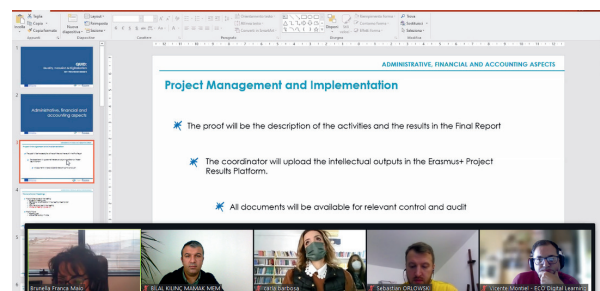

- ✓ The adoption of the train-the-trainer program,
- ✓ Jointly developed Open Educational Resources
- ✓ Jointly developed and applied Educational Innovation Toolkit
- ✓ The constitution of a Transnational Network of European Teachers
- ✓ Signing of a Memorandum of Understanding

What's happened until now?

The first meeting of the project was held online via Zoom on March 7, 2022. At the meeting, each partner presented their organizations under the presidency of the Italian coordinator. Following a lengthy presentation on the project, the partners worked in groups to prepare and validate documentation to be used for the focus groups to be held with teachers and students. Each country will conduct them in their own schools to obtain valuable information for the train the trainer programme and OER development.

In order to ensure timely and quality implementation of activities, a detailed timeline of tasks and activities was agreed among the partnership.
